Entertainment Extra by Evelyn

Q. Where is Jacqueline Kennedy Onassis' autobiography going to appear and when? Bobbie Ann

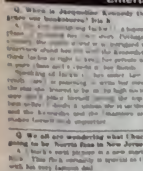
A. Her first interview was last night but no details. Supposedly her first story, Perhaps this is why after a quarter of a century, the public at large is intrigued with Jackie but hasn't grieved as Washington did after the Kennedys moved out? Please, Personally, I think Jackie is right to keep her private affairs just that — private! The lady is years past girl's dreams and has finished

Speaking of Jackie . . . her sister Lee Radziwill says that anyone would be crazy to publish a book about her memoirs. Lee certainly should because she was the one who seemed to do no high-living outside the shadow of Jack. I for one don't think I would be interested in the Bouvier girls and the Kennedys and the Onassises and whatever else Lee might think makes Lee's book interesting.

Q. We all are wondering what Chuck Norris' next movie project is going to be Norris Ross in New Jersey

A. Chuck's next picture is a new martial arts motion picture called "Top Kick." This film, currently in special on Chuck comes fun now, May, courtesy with his very fashion doll

Q. Is it true that Joan Collins once starred on "Batman?" Norton



A. Yes. Miss Collins originally starred as "The Siren," an ex-nemesis to "The Riddler." Following that stint "The Siren" went on her own after the Caped Crusaders. This special game villainess was a bad time lovely who could stun men into mass-fainty with a single devastating eye-look. Thank goodness "Batgirl" was around to help the dynamic duo!

Q. I have an interesting question: Is it true that during seclusion in his home, Bob Love actually got so disgruntled with the press stationed outside that he "mooned" some cameramen? Dot I.

A. Acknowledging the embarrassed artist himself this incident was true. You indeed, Bob lost temperament in his own home after all the publicity from his nomination magazine in Atlanta. However, Love said that a certain television station turned a Bob Love bobblehead to do the "mooning" for coverage on them! The show in question was "A Current Affair" according to the wife of Howard Cosell, Emmett Robert Smith. Of course, Howard denied knowledge involvement. A current Affair nerves were abused with this phony and very ungentlemanly stunt.

Q. Is it true that "Rocky V" will be Sylvester Stallone's last performance as the famed boxer, and that his character will be killed off? Peg H.

A. My dad insisted write a scene where Rocky would be killed off but movie experts and General Motors did not go through with this particular idea so Rocky will live on perhaps as "Rocky V."

DEAR DIANE / DEAR DEX

by Diane Van Arsdale / by Dexter Dyer

DEAR DIANE:

I'm 37 years old and have been married for six years. I don't work outside the home. I'm a housewife. My husband gives me the hardest time whenever I need money to go grocery shopping or for whatever else is needed around the house. I have to always ask him for money to do these things, and feel I have no say or control. I feel all my duties in the house give my some rights, but he acts like he's doing me some favor. He comes home and throws his clothes all over the house and wants his dinner ready when he gets home. In the evenings, he relaxes or goes out with his friends. I'm to stay at home and take care of the house and can't go out with my friends. I'm really tired of this kind of life and am at the point where I would like to get out. I would divorce my husband, but I have no skills to really get a decent job and support myself. Any thoughts you may have to help me stand up on my own two feet and feel worthy again, I would appreciate. WORN OUT

DEAR WORN OUT:

First of all I think you're selling yourself short in terms of employment. While you may not believe this, there are many opportunities in the service fields that food restaurant and supermarket department stores which are going unfulfilled because of people's misconceptions about such careers. Granted, you're not going to start out as a manager, but you can work your way up to that in the interim you will be earning money and receiving benefits after only on job training. That is a very positive first step for you.

As far as your marriage is concerned, I suggest counseling if you still have a desire to save the situation. I personally don't think it a totally hopeless if your husband just needs to be taught a lesson. For instance, you may decide to go on "strike" when he treats you like a slave servant or gives you a hard time about money. You should draw your points home forced he'll

DEAR DEX:

I am a 60 year old grandma. My husband passed away at age 59 in 1979. We had three children, two girls and one boy. After two and a half years alone I met one of his World War II buddies from the same outfit. We became good friends, and eventually married my children liked my new husband.

My current husband has two girls. One of them likes me and the other one hates me. I have tried to make friends with her like trios to cause trouble. I love my husband, but I don't know how to handle this one girl. I have prayed to God to make this matter be okay for us. I want a life with their father. We have been married nine years now and the situation remains the same. I hope you can help me.

VERY SAD

DEAR SAD:

I think first you should sit down with your husband and let him know you're having problems with his daughter and have been all along. Stress to him your desire to get along with her and have a good life together so he realizes you're not picking on her in any way. Then I think you should ask him to set her straight. You are his wife and have been for some time now. This woman is going to have to accept that. After all, she's no child and her life is being disrupted by this. She's going to have to face facts and grow up once and for all. If her father tells her that she may not like it, but she has no choice other than to accept it.

Health & Nutrition

by Judith Sheldon

DRY EYES: Robert H. Newsome, M.D., the chief of opthometry at the Department of Veterans Affairs Outpatient Clinic in Columbus, Ohio, says persons with rheumatoid arthritis, Sjogren's disease, or Graves disease may have dry eyes. Items which should be treated by an eye doctor. For example, people with rheumatoid arthritis may have dry eyes and eye pain. They need to be treated with moisturizing eye drops or eye medicine to reduce inflammation. Dr. Newsome says items that help an eye doctor can determine the exact diagnosis and treatment for each patient with rheumatoid arthritis. In Sjogren's disease chronically dry eyes can cause irritation, and around the eyes, which an eye doctor may treat with artificial tears, lubricating eye ointments and occasionally special contact lenses to provide more comfortable vision. Those with Graves' disease a protrusion of the eyeball from which Pam Lady Barbara Bush suffers from can develop protruding eyes and strabismus because of a temporarily paralyzed eye muscle. Artificial tears may keep the eyes moist, and surgery may be needed for the muscular problem.

IRON RISKS FOR MEN: While women have to make sure they get enough iron in their diets to prevent iron deficiency anemia, men need to be careful not to overload on this nutrient. Excess iron is stored in the liver and pancreas, and can lead to diabetes, arthritis, cirrhosis and congestive heart failure. perhaps even an increased risk of cancer. Men should check their diets before taking an iron supplement to avoid the dangers of overdosing.

There has a new drug to fight fungal infections in cancer and AIDS patients. The antifungal agent, fluconazole (brand name Diflucan) also works against fungal infections involved with pneumonia, urinary tract infections peritonitis — as well as fungal problems sometimes afflicting organ transplant recipients, diabetics and those on long-term antibiotic treatment.

Though not a great cancer cure rate, still many people may wonder why their stomachs sometimes growl. Dr. Sheldon Margen of U.C. Berkeley says when air or other gases present in the digestive tract mixes with the mass of partially digested food and digestives juices moving along the tract, the growls are produced. We hear them more often when we're hungry because we subside more at that time and endless noise are

Home hints

BAKING HINT — If you run out of confectioners sugar and can't get to the store, try this.

You will need one cup of granulated sugar and one tablespoon of cornstarch. Place in a blender or high speed for several minutes. It will be powdered and ready to use. As with most substitutes, the result won't be identical to the dish may be altered slightly. Jean T. Florence Ky.

CAR KEYS — Here's a fool proof idea guaranteed to prevent you from locking your keys in your car. Just put the keys in with the dog. I have done this for years since my first one in the 1950s and 1960s, could be locked in no other way. Tempett, Key Hole Locks and Door Knobs seem to provide the convenience of a lock which made it possible to lock the door from the outside, but still be locked by using the key. I have found that many motorists have keys from a locked car but never from my own. Ken T. El Paso, Texas

EMPTY BLEACH BOTTLE — I have found a simple use for an empty bleach bottle. Use a white (not clear) gallon jug for cleaning and wash the bottle well with hot sudsy water. cut off the neck and with a large opening in the top half, opposite the handle. This opening should be large enough to screen insulate a large mixer hand.

Instead of fumbling over all the dishwares, scoop them off the table into the jug, wash it and stir them up then pour the jug from plastic to plastic to clean them. It makes for a quicker game and nobody is too far from the "home table."

Using a white jug makes it impossible to read the dials through the plastic

ROLLED WRAPPING PAPER — No matter how careful wrapping paper is handled, it still gets torn some on the edges, mashed and mangled. As I cut the good big from a past of torn pieces and roll the roll of paper down onto the leg and hang it on a little nail on the side of my closet. Now no matter how long it hangs it stays smooth and straight. Harold H. Wayne Neb.

BIN RARIE BARI

Having a baby is sleep in order. A decent American mother in the 1820s almost her mother baby with impressive furniture, known as a mammy or nursing bench. A long reaching bench, covered with a flat hooded pillow, has a small space at one end so that the infant could be wrapped in blankets and placed behind the hooded and the mother or nursemaid could sit at the other end and rock the bench and baby. The bench could be easily removed.

Until recently, decorative designs on mammy rocking the baby as they sat and nursed. These have been the most sought after in the 1820s. Some mammy benches were made in Windsor colors with spindle backs, but these versions had arrow or sun backs.

Q. I have a small round glass pin with a cat's face. It looks like the face in Isolde the glass. My grandmother had this pin and she said it was made in the 1700s. Do you know how it could have been made?

A. If the pin is over 100 years old it is probably a cameo type. Most of this type of jewelry was originated in Belgium about 1870. The cats face or other image was carved in reverse into the back crystal. Then the carving was painted in detail. The process is very difficult and is not being done today. Cameos but be less than 100 years old jewelry was popular in the 1880s. Your pin is probably from the reverse then coloured foil not a perfect detail.

Q. When was Landcastle pressed glass made?

A. Landcastle is a pattern of glass introduced by the Imperial Glass Corporation in 1930. It was made until October 1962, when the moulds were interchanged. The old moulds were sold so there is no doubt that new pieces are being made.

Landcastle is a pattern with three beading on the edges of the stems on glasses, bottoms of bonbons, and top of ladies and in other ways. There are over 100 different items registered here by Imperial. Mark Imperial Glass called this pattern Mark's natural pleasure. Wait Tu Bee. Thorne finds himself the red with a penalty decision he doesn't said to thank.

DALLAS. Stephanie provided J.R with a surprising development, Lisa son and Ellie realized they may have made a terrible mistake in their zeal to pursue the "mysterious" Wait To Bee. Jarrod decided it's time to make J.R aware of what's really happening on his life.

DAYS OF OUR LIVES: Mike told April not to believe him so Hope, Brian accepted her bid to work at Wings. Kimberly's guy is teasing the sailing Eric to myself her to be the divorce choice. Hope's an arrested his drunk driving. Jeremy decided he would no longer be her breakfast and the mother of mistaken. Jack and the other end and Jack could sit at the other end and Jack the bench and baby. The bench could be easily removed.

Your Health

by Lester L. Coleman, M.D.

Q. How old my employees stays home from his job five or six days a month. He is conscientious as a worker, and has been with me for many years. Our company doesn't have a sick day policy, but I feel something wrong with him. He then works double hard to make up for the lost time and is then under stress doing this. How can we help him?

A. You are most kind to be so solicitous and understanding of your worker. Some employers fail to take into consideration the fact that emotional problems are a common reason to absenteeism and lower productivity. There are many services you can produce as "real" a sickness as a broken a cold or a fractured appendix. The fact that a doctor fails to find any evidence of bodily physical disease for his absenteeism does not mean that your employee is not free of illness.

The man does not seem to be a malingerer or a gold bricker who is shirking his responsibility. He does really is sincerely distressed by his behavior and would like nothing better than to be able to and to continue to be serviceable on his job.

Many people with emotional problems become fatigued and easily depressed and so engrossed in their anxieties that their behavior at the job is better and in the community is badly affected. The anxious, tense, emotionally upset person lacks a special kind of help-person and frequently he has problems and fit into the surrounding world. Your employee may be one of those who has not complete faith in his ability to make decisions and to assume responsibility. The chain reaction of insecurity and loss of self confidence can make him terrified of his job. You can play an important role in identifying him so that he has a greater understanding of his own personal independence.

The cost of his behavior is expensive to both of you. The loss in productivity cannot measure the real destructiveness to his inner security. There is no real measuring device to show the effects of this behavior on his personal happiness and his occupational creativity.

There is a way that you can help this man who probably wants nothing more than to work and be respected. You must show him in a psychiatrist a psychologist, or a guidance counselor who offer specific psychological studies may be able something in his life's grounded to be healthy behavior that will direct the therapist to readjust him to patterns of living that will again be productive

PASHKA

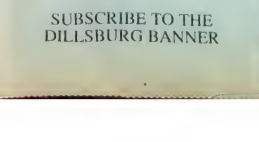
1 envelope (1 tablespoon) unflavored gelatin
¼ cup sugar
½ cup cold water
1 lb no. container Polly-O lite ricotta cheese
2 tablespoons lemon juice
½ teaspoon vanilla extract
2 egg whites
½ cup chopped candied cherries
½ toasted sliced almonds
½ cup currants or raisins
sliced almonds (optional garnish)

In small saucepan, combine gelatin and sugar; add water and let stand one minute. Stir over low heat until gelatin is completely dissolved, about five minutes (cool slightly).

In blender or food processor fitted with steel blade, puree ricotta with lemon juice and vanilla until smooth, about one minute. Blend in gelatin mixture. Transfer to large bowl and chill until mixture mounds slightly when dropped from a spoon.

In medium bowl beat egg whites until soft peaks form. Fold white into ricotta mixture and gently fold in fruit and nuts. Spoon mixture into a cup-mold; chill until set. To serve, unmold onto serving platter if desired. Garnish with sliced almonds. Makes 10 servings.

Note: Pashka is usually molded in a flower pot but a three pound ricotta container is a good substitute.



LITE EMILIMI STRAWBERRY ROLL

½ cup all purpose flour
½ teaspoon baking pow der
4 eggs, separated
½ cup sugar
1 teaspoon vanilla
Confectioners' sugar
1 lb no container Polly-O lite ricotta cheese
½ cup confectioners' sugar
2 teaspoons grated lemon peel
½ cup sliced fresh strawberries, divided

Preheat oven to 350F. Butter and flour a 15 X 10 X 1 inch jelly roll pan or line with waxed paper; combine flour and baking powder. In large bowl, using electric mixer, beat egg yolks until thick and lemon colored; gradually add sugar and vanilla and beat two minutes longer. Fold in flour mixture.

In clean bowl with clean beaters beat egg whites until soft peaks form. Fold into egg yolks mixture and spread in prepared pan. Bake 12 to 15 minutes until lightly browned and center springs back when touched with finger. Sprinkle a dish towel with confectioners' sugar. Turn cake out onto towel and while still hot roll up cake and towel lengthwise. Cool on wire rack.

In blender or food processor fitted with steel blade puree ricotta cheese with sugar and lemon peel until smooth and well blended. Unroll cake and spread with ricotta mixture to within ½ inch of edges. Arrange one cup strawberry slices over filling and reroll cake firmly without towel and neatly onto platter. Sprinkle with confectioners sugar garnish with remaining strawberries. Makes 12 servings.

Paint & Household

by Bob D'Angelo

Q. I have just had a new garage door installed and plan to paint it. Some say that both sides of the door should be painted, while others say that the outside should be painted. Which way is right? Q.M., Augusta, N.Y.

A. I feel that I am putting my reputation on the line with this one as there is some grey on in it here and there. While some say it is a matter of question, there it be professional painters who do not agree and wonder how I could come to such an opinion.

Okay here goes. It is my opinion that you paint both sides including the edges, tops and bottoms. Aside from the wood that says you said the wood does not expand when only the panes Doesn't the wood have to breathe, you say? Well, panes are formulated to allow vapor out yet keep moisture from getting in.

Q. I would like to know if there is a way to clean plastic tiles — remember them. I can't find them anymore. I think them self a bathroom wall they were quite a few years, but the glue stuck to them. Many of them are still usable. If I can get the panels out. They are easy to handle- especially for a hon gen like me- Can you give me any help? Your column is such a welcome sight. B. Huddleston, N.Y

A. I think you're stuck with a lot of plastic tiles. I've asked some pretty knowledgeable people for some years, with no luck. It is my feeling that the adhesive is probably more durable and hard than the plastic tiles themselves and any attempt to get the tiles down will get you a dibly result in diminishing the tiles I'm sorry I can't provide a fantastic solution to this problem.

Q. I have an older bungalow type house with a full gable roof the asbestos siding needs to be used of replacing, and I was consider the attaching of a brick veneer. Any suggestions? B.B. Wichita, Kansas

A. I am thoroughly convinced that the average homeowner has no knowledge to read replacement especially gable roads. You probably have to take the old shingles off first as it is against the law to have several layers of shingles on any roof. I am not positive but I believe it is three layers in New York.

Certain jobs are best left to professionals. My advice would be to carefully choose a professional roofing contractor to perform the job.
